BAR SILVER is steadily advancing.

SEND THE WEEKLY REPUBLICAN to friends East and West.

SIXTY-THREE new subscribers were placed on the books of THE REPUBLICAN yesterday.

THE silver men must not allow themselves to become divided on the lead ore question.

Some papers whom no one before suspected of Republicanism are now sounding their claims.

THERE are immediate benefits to flow from the development of our mining resources. Every aid should be extended the prospector.

THE death struggle of the Zulick holdovers is really pitiful to see. Decency would demand that the writhing be done behind closed curtains.

BETWEEN snow and water this has been a very disastrous year to California. Even as late as this, come reports of disasters by snow in the Sierras.

DOLPH by favoring the Windom silver bill may have solidified himself with the administration, but he has killed himself with the Republicans of Oregon.

EVERY man who improves the plat of ground surrounding his home does a service to Phoenix. Trees, lawn and shrubbery add immensely to the value of a property.

Now that Train has returned from his trip around the world, will Tacoma kindly incarcerate the lunatic and save the world further emanations from his cracked brain?

THREE different lots of freight consigned to THE REPUBLICAN, from San Francisco have been delivered in Phoenix in five days. There can be little complaint on that kind of time.

THERE appears to be a wide difference of opinion between the papers demanding statchood and those opposed to it. The middle ground is about the true one and that is that the people haven't much care one way or the other.

JACKSON, the colored puglist from Australia, is on his way home from the East. He returns with drooping colors, his bout with Smith, in Chicago, having been anything but satisfactory. He won the contest, but it brought him no glory.

THAT's a fishy story that comes from San Diego, relative to an organized scheme to cause a revolution in Lower California. This appears to be a revival of an old sensation, in a somewhat new guise. President Diaz will not be much alarmed by this story.

THE Chinese Six Companies are overdoing the smuggling business by way of Mexico. Mazatlan has become over-crowded with Coolies and the Mexican government is shipping them out. The telegram laconically says "many will go to the United States." How?

WITNESS TAYLOR, in the Clayton-Breckenridge case, illustrated how the Solid South is maintained. He got tired of stealing ballot boxes, and to save his life from a Democratic sheriff was compelled to flee the country. The Arkansas method is equal to that of Mississippi.

SECRETARY MURPHY has returned from Washington and says the North and South railroad will absolutely be built, whether the bonding bill passes or not. This is just what THE REPUBLICAN predicted in its first issue. The railroad is coming, that is certain, and a right royal welcome it will receive.

At this range it is not quite clear why California should be excited over the prevalence of smallpox to the East of us. There is sufficient of a scare at Sacramento, however, to induce them to send three health officers to Denning and El Paso, at a cost of \$1000, to prevent the introduction of the contagion.

UNITED STATES MARSHAL PAUL has a larger border to cover than Marshal Gard, of Southern California, and one that is in many respects more difficult. Yet Mr. Paul thinks that with ten men he could cover the boundary from Yuma to the New Mexican line. Considering that the distance to be covered exceeds four hundred miles the force asked for is not too large.

THAT the Republic must sooner or later check immigration is a fact recognized by all classes and one that is now engaging the consideration of our wisest statesmen. Our population is growing too fast and the foreign element is not being assimilated. This is particularly true in large cities, though noticeable throughout the country. Gen. Fremont's plan to stop all immigration for thirty years might be put into operation without injury to our institutions.

UNDER Mr. Huntington's vigilant eye, many of the old stagers who have had sinecures at handsome salaries for years past are being relieved from duty with the Southern Pacific company. Most of these have been political parties and several of them existed in Arizona.

Under the new order of things the road will make money, but wait till the various Legislatures meet and then see the boys shake up the old man. By the way, is the printing knife to be applied to the Washington bureau, also.

## CHRIST'S APPOINTMENT.

To the appointment of Mr. Christ as Collector of the Department of Arizona there was considerable opposition, both of a personal and a political nature. Among those who protested against the appointment was Governor Wolfley, who based his objection on affidavits and statements forwarded to the Department by former friends and associates of Mr. Christ. He stated his objections in a manly and straight-forward way, directly to the President, with full privilege to have them shown to Mr. Christ, that he might have an opportunity to refute them, if possible.

A letter to Governor Wolfley from the President, which will be found on another page of today's REPUBLICAN, indicates the motives that actuated the administration in making the appointment. The President need have no fears that the nomination of Mr. Christ will in anywise jeopardize the future of the party in the Territory, no matter how repugnant it might be to many of the party leaders. Governor Wolfley will recognize the new Collector as he would any official of the government and will co-operate with him, beyond a doubt, as he always has, with other officials, in the best interests of the service and the party. If any evil will come to the public service by this appointment it will come from Mr. Christ himself, who should be confirmed, as he undoubtedly will be, will have an opportunity to show himself worthy of the confidence reposed in him by the President.

## THE PENETRATING DUST.

The clouds of flying, penetrating, health-destroying dust is a nuisance that is universally condemned and loudly calls for abatement. Its presence shows that the present system of sprinkling is wholly inadequate. The health of the city and the interests of merchants and housekeepers demand that the dust be laid and that thoroughly and effectively. The work is too large an one to be done by private enterprise, and on the other hand the city government say that they cannot afford to assume the whole burden.

What is needed is a committee on Ways and Means. THE REPUBLICAN suggests a compromise—the creation of a special fund to be known as the sprinkling fund. It would suggest that the city advertise for bids for the sprinkling of all the streets in the city for the period of six months. We have no doubt that all would be surprised to see how cheaply it could be done. The water company can be relied upon for liberal concessions, if they are needed. The cost of the work once ascertained, the fund might be created by diverting one-half of the required amount from the treasury, the balance to be made up by private subscription, amateur entertainments, festivals and other means.

Every business man in the city can afford to give liberally towards this fund. THE REPUBLICAN has no doubt that the good ladies of Phoenix would consider it a favor to be given an opportunity to do something in this direction. No one suffers more from the penetrating dust than the housewife. It finds its way into every nook and corner, to the injury of furniture, carpets, linen and clothing, not to say anything of the personal annoyance and discomfort. We are not sure but the ladies would initiate the movement if given a little encouragement.

## A TELEGRAPHIC FRAUD.

On the 20th inst, the Tucson Citizen and the Tucson Star published the following as a Press dispatch, under the heading of "What Does This Mean?"

WASHINGTON, May 19.—The appointment of Geo. Christ as Collector of Customs of Arizona was most bitterly opposed by some of the Federal officials of Arizona, principally the Governor and Surveyor General. It is understood that General Noble interested himself personally in Christ's behalf, notwithstanding the appointment comes through the Treasury department. Senator Allison and Clarkson have shown much interest from the beginning in Christ's fight, as he was formerly a leading politician in Iowa. It is claimed that some changes in Arizona appointments are liable to follow.

As THE REPUBLICAN takes the full Associated Press dispatches it is in position to say that this is a fraud, unworthy of any newspaper. It has every appearance of having been written mainly in order to enable the use of the head which it was given. It is clearly a piece of work in newspaper circles known as "grape-vine"—written in the home office for temporary purposes. Considering that the editor of the Citizen is also Register of the land office, mainly by the aid of those whom this pretended dispatch seeks to injure, it seems that he should have exercised greater oversight of his columns.

In this connection the very friendly letter from the President to Governor Wolfley, directly relating to this subject, would seem to give the lie direct to this dispatch. So far from Mr. Christ's appointment having any influence on existing officials, it seems to be agreed that Mr. Christ shall not in the future aid in antagonizing Republican harmony, but that on the contrary he will join hands with the Governor and all true loyal Republicans in working for the best interests of the party and of the Territory.

The hopes of the malcontents will turn out to be Dead sea fruit.

WHILE at San Diego the other day, President Huntington, of the Southern Pacific, said "that he was impressed with the advantages that would result from the Southern Pacific constructing a line to San Diego," and that "he was of the opinion that the best way to reach that city from his road was by a line from Yuma through Lower California."

Further, he promised to at once order a survey of the line made. While THE REPUBLICAN would prefer to see a short line between Phoenix and San Diego, independent of the Southern Pacific, any direct outlet to tide will be a welcome boon.

THE coming head of the Southern Pacific system is Col. Fred. Crocker. President Huntington is an old man, whose years do not rest lightly on him and whose trembling hands show the ravages of time. He cannot hope for many years of activity. His natural successor is Col. Crocker, young, able, earnest, active. His life has been spent in the service of the company and among the people of the Pacific. He is one of them and in his hands their interests will be safe.

## ARRIVED IN PHOENIX.

The Famous Vitapathic Physician, Dr. J. D. MacLennan Of

San Francisco, Cal., Whose Marvellous Cures Have Won for Him a World-wide Reputation.

Now located for a limited time only, in the Monihon building, rooms 1 and 2, where he offers

FREE CONSULTATION and free treatment to the poor, while the rich are expected to pay a moderate fee. Anyone who doubts his ability the following cases, selected from thousands of others on file at his office, ought to satisfy them to the contrary. One thousand dollars will be given for any of them not genuine!

Ex-Gov. A. F. E. Safford, of Arizona, cured of nervous prostration in three weeks recommends Dr. MacLennan very highly. Attorney-General Marshall's reply to Hon. T. F. Jones.

OFFICE OF THE ATTORNEY GENERAL, OF THE STATE OF CALIFORNIA, }  
SAN FRANCISCO, March 18, 1884.

Hon. T. F. JONES—My Dear Sir: I have just received your letter of the 13th. Doctor MacLennan was of great and singular service to me. I certainly would try him if I were in your place. He has worked some wonderful changes within my knowledge. Respectfully,  
E. E. McFARLAND.

Now read what Doctor A. S. Hughes, a medical practitioner of forty years, whom Dr. MacLennan cured, has to say.

TESTIMONY OF DOCTOR HUGHES.  
The undersigned, a resident of the town of Slaughter, King County, W. T., has been afflicted for over two years with a disease termed by some physicians epistaxis, by others, hemorrhoids, from which I have suffered at times the most excruciating pains, and have been kept in bed for months. The disease and pain started in my upper jaw on the right side, under the right eye, the nose extending up through the bones of the face, and finally to the right side of the head affecting my eyes.

My own skill, being a practicing physician for over forty years, and counsel from several others of good repute, failed to give me any relief. I applied to Dr. MacLennan and received seven treatments from him and in truth must say that I was relieved of all pain. I sleep well, eat without pain and enjoy a peaceful and pleasant state of mind.

A. S. HUGHES, M. D.  
Dr. A. Boyce, of Toledo, Wash., testifies: "This is to certify that I was quite deaf. I called on Dr. MacLennan and in three applications he cured me. I recommend the doctor, as I believe he is doing much good."

Dr. A. Y. Boyce, of Toledo, W. T., Prof. A. Gonzales, of San Francisco, given up by his physicians to die of spinal vitality and paralysis, was carried perfectly helpless to MacLennan and cured, now says:

"In less than one month I was enabled to resume my occupation as professor of music and violinist at the Tivoli opera house, and ever since, for the past three years, have continued in good health without the slightest return of my weakness or disease."

Dr. Henry Shale says: "My case was considered incurable by the best physicians, but Dr. MacLennan restored me the use of my limbs in less than twenty minutes, being paralyzed for over four months."

Rev. John Stupp, Secie, Linn Co., Oregon, writes: "By the recommendation of my son-in-law, J. C. L. Miller, whom you treated successfully for rheumatism, and his wife also for a diseased shoulder and nervousness, I submit my case to you."

SAN JOSE REFERENCES.  
J. W. THOMAS, 313 South First street, who was a great sufferer, going about on crutches, threw them away after receiving his third treatment from Dr. MacLennan.

Michael Minahan, residing at 39 Julia street, totally deaf in his left ear, together with constant roaring and ringing in his head, was cured the other day after a few treatments from Dr. MacLennan.

Dr. MacLennan treats, successfully, all broken-down constitutions, nervous and general debility, weak spines, prolapsus, and all kinds of male and female weakness, of a private nature or otherwise, brought on either by abuse or excess, diseased liver, kidneys, stomach, heart, lungs, throat, head, eyes and ears, internal ulcers, loss of voice, weakness of the limbs, weak back, weak eyes, dyspepsia, rheumatism, asthma, bronchitis, catarrh, deafness, diabetes, epilepsy, consumption, paralysis, matured tumors, cancers and many other chronic and painful diseases too numerous to be mentioned. Consultation free. Dr. MacLennan, Monihon building, corner Washington and Cortez streets.

## WANTS.

The quickest returns for the least money are to be obtained from THE REPUBLICAN'S want columns. Situations wanted, help wanted, for rent, for sale, to let, to exchange, one cent a word each insertion, or by the month at five cents per line a day.
